Subject — Letter No 213 of the 30th May 03 from the Principal, Central College — Purchase of certain Chemical and Physical apparatus for the Central College Laboratory

Note

The Principal states that during his last furlough to England he personally selected a number of pieces of Chemical and Physical apparatus required for the Laboratory to bring it up to date especially on the practical Side

The charges exclusive of freight, clearing charges in Madras, and rail charges from Madras to Bangalore, amount to £ 171-4-1°

The Principal proposes to meet the cost as follows ——

47 £ To be met out of the balance of the Laboratory Contingent grant

The Remaining 124 £ or Rs 1860 to be met from the Savings in the College on account of his furlough which he says nearly amount to Rs 2200

As the Principal has already paid the bills, he requests that the Comptroller may be authorized to place at his disposal the amount of Rs 1860 before the end of the current official year.

In such cases a Reappropriation Statement should be submitted to Govt through the Comptroller. (Vide G.O No Fl 1150-1192 & 7/2/03 18-1901-2 Chapter II, Paras 21 to 23) put up B

Mr Cook's book wants payment
to be made before the expiry
of the financial year
Making all allowance for
Mr Cook's ignorance of
the financial rules — We were
pained during his absence on
furlough — it does seem rather
unreasonable that expenditure
shd have been incurred without the
sanction of Govt and that
Govt shd be hurried to
make payment on account.
Such expenditure Mr Cook
could well have advised Govt
of any of the proposed
expenditure & obtained formal

To

H.V Nanjundayya Esquire, M A ,M L ,
Secretary to the Govt of Mysore,

Sir,

During my recent furlough to England I made use of my opportunities to personally select a number of pieces of Chemical and Physical apparatus required for the Laboratory to bring it upto date especially on the practical side This I did because past experience has taught me that, when apparatus is ordered merely from a catalogue, it frequently turns out disappointing when received

I also remembered that Government had been good enough to sanction the savings from the budgetted allowance of the College for 1901-2, arising from the furlough on half pay of Mr Tait and the death of Mr Leonard, to be expended for the improvement of the College in Cudappa-slab flooring, in the addition of two rooms to the Practical Physics Laboratory by the conversion of verandahs and sundry other improvements and I considered that Government might very reasonably be expected to make a similar concession with regard to the savings arising from my own furlough to England

I find that, exclusive of freight, clearing charges in Madras and rail charges from Madras to Bangalore, the bills paid by me for Physical apparatus, Chemical apparatus, Chemicals, glass-ware and tools amount to £171-4-6d and that the balance of the Laboratory Contingent Grant for the current year, 1902-3, amounts to the equivalent of £47, leaving a balance of £124 to be met, which is the equivalent of Rs1860

The savings due to my absence on furlough as shown by the subjoined statement amount approximately to Rs220

In these circumstances I have the honor to request that Government may be good enough to sanction the payment to me by the Comptroller before the expiry of the Official Year, of the sum of Rs 1860 to meet the expenditure by me on personally selected apparatus for the College Laboratories

I may add that I was very much inclined to purchase two other items which the College Laboratory greatly in need of, viz , an Electrical S orage Battery and a Laboratory Turning-Lathe I shall make these the subject of a separate request for a special grant in the near future

Sir,

I have the honour to forward herewith a brief note received from the Principal, Ravenshaw College, Cuttack, with a request for information as to what amount of Rs. 2,00,000/- will be anticipated as saving during the current year under the head "Education - Colleges and High Schools". It is not possible to say what the actual savings here will be from the scanty figures of the General College staff and the budget details of 31 Colleges and High Schools which are shared by the Director of Public Instruction and Government Model High Schools and Colleges.

I have the honour to be,

Sir,
